Functionality Checklist (Admin Dashboard)

TRIAL 1

FEATURE	DESCRIPTION	OUTCOME
Website Loading	Website loads without any error or crashes	PASS
Dark mode working	Dark mode toggle switches interface to dark theme and persists	PASS
Dispenser Selection & Highlight dispenser routing	Correct highlights in a dispenser with a glowing outline on the 2D map	PASS
Complaint Management	Users can click any dispenser card from the available dispensers panel to manually select that dispenser, overriding the automatic routing suggestion. The system then highlights the manually selected dispenser and recalculates the route path accordingly.	PASS
Historical Logs	The complaint submission form accepts user input (issue type, optional details) and successfully sends the data to Firebase Realtime Database. Upon successful submission, a confirmation message (e.g., "Complaint submitted successfully") appears to the user.	PASS

TRIAL 2

FEATURE	DESCRIPTION	OUTCOME
