Functionality Checklist (User Dashboard)
Trial 1

DISPENSER 1

FEATURE	DESCRIPTION	OUTCOME
Website Loading	Website loads after QR scan without any error or crashes	PASS
Dark mode working	Dark mode toggle switches interface to dark theme and persists	PASS
Automatic dispenser routing	Scanning QR code of empty/CRITICAL dispenser automatically highlights nearest available dispenser with route path	PASS
Available dispenser manual selecting	User can click any dispenser on the available dispenser cards to manually select it, overriding automatic routing	PASS
Problem reporting	Complaint form submits message to Firebase; confirmation message appears	PASS

DISPENSER 2

FEATURE	DESCRIPTION	OUTCOME
Website Loading	Website loads after QR scan without any error or crashes	PASS
Dark mode working	Dark mode toggle switches interface to dark theme and persists	PASS
Automatic dispenser routing	Scanning QR code of empty/CRITICAL dispenser automatically highlights nearest available dispenser with route path	PASS
Available dispenser manual selecting	User can click any dispenser on the available dispenser cards to manually select it, overriding automatic routing	PASS
Problem reporting	Complaint form submits message to Firebase; confirmation message appears	PASS

DISPENSER 3

FEATURE	DESCRIPTION	OUTCOME
Website Loading	Website loads after QR scan without any error or crashes	PASS
Dark mode working	Dark mode toggle switches interface to dark theme and persists	PASS
Automatic dispenser routing	Scanning QR code of empty/CRITICAL dispenser automatically highlights nearest available dispenser with route path	PASS
Available dispenser manual selecting	User can click any dispenser on the available dispenser cards to manually select it, overriding automatic routing	PASS

Problem reporting	Complaint form submits message to Firebase; confirmation message appears	PASS

DISPENSER 4

FEATURE	DESCRIPTION	OUTCOME
Website Loading	Website loads after QR scan without any error or crashes	PASS
Dark mode working	Dark mode toggle switches interface to dark theme and persists	PASS
Automatic dispenser routing	Scanning QR code of empty/CRITICAL dispenser automatically highlights nearest available dispenser with route path	PASS
Available dispenser manual selecting	User can click any dispenser on the available dispenser cards to manually select it, overriding automatic routing	PASS
Problem reporting	Complaint form submits message to Firebase; confirmation message appears	PASS

Trial 2

DISPENSER 1

FEATURE	DESCRIPTION	OUTCOME
Website Loading	Website loads after QR scan without any error or crashes	PASS
Dark mode working	Dark mode toggle switches interface to dark theme and persists	PASS
Automatic dispenser routing	Scanning QR code of empty/CRITICAL dispenser automatically highlights nearest available dispenser with route path	PASS
Available dispenser manual selecting	User can click any dispenser on the available dispenser cards to manually select it, overriding automatic routing	PASS
Problem reporting	Complaint form submits message to Firebase; confirmation message appears	PASS

DISPENSER 2

FEATURE	DESCRIPTION	OUTCOME
Website Loading	Website loads after QR scan without any error or crashes	PASS
Dark mode working	Dark mode toggle switches interface to dark theme and persists	PASS

Automatic dispenser routing	Scanning QR code of empty/CRITICAL dispenser automatically highlights nearest available dispenser with route path	PASS
Available dispenser manual selecting	User can click any dispenser on the available dispenser cards to manually select it, overriding automatic routing	PASS
Problem reporting	Complaint form submits message to Firebase; confirmation message appears	PASS

DISPENSER 3

FEATURE	DESCRIPTION	OUTCOME
Website Loading	Website loads after QR scan without any error or crashes	PASS
Dark mode working	Dark mode toggle switches interface to dark theme and persists	PASS
Automatic dispenser routing	Scanning QR code of empty/CRITICAL dispenser automatically highlights nearest available dispenser with route path	PASS
Available dispenser manual selecting	User can click any dispenser on the available dispenser cards to manually select it, overriding automatic routing	PASS
Problem reporting	Complaint form submits message to Firebase; confirmation message appears	PASS

DISPENSER 4

FEATURE	DESCRIPTION	OUTCOME
Website Loading	Website loads after QR scan without any error or crashes	PASS
Dark mode working	Dark mode toggle switches interface to dark theme and persists	PASS
Automatic dispenser routing	Scanning QR code of empty/CRITICAL dispenser automatically highlights nearest available dispenser with route path	PASS
Available dispenser manual selecting	User can click any dispenser on the available dispenser cards to manually select it, overriding automatic routing	PASS
Problem reporting	Complaint form submits message to Firebase; confirmation message appears	PASS

Trial 3

DISPENSER 1

FEATURE	DESCRIPTION	OUTCOME
Website Loading	Website loads after QR scan without any error or crashes	PASS

Dark mode working	Dark mode toggle switches interface to dark theme and persists	PASS
Automatic dispenser routing	Scanning QR code of empty/CRITICAL dispenser automatically highlights nearest available dispenser with route path	PASS
Available dispenser manual selecting	User can click any dispenser on the available dispenser cards to manually select it, overriding automatic routing	PASS
Problem reporting	Complaint form submits message to Firebase; confirmation message appears	PASS

DISPENSER 2

FEATURE	DESCRIPTION	OUTCOME
Website Loading	Website loads after QR scan without any error or crashes	PASS
Dark mode working	Dark mode toggle switches interface to dark theme and persists	PASS
Automatic dispenser routing	Scanning QR code of empty/CRITICAL dispenser automatically highlights nearest available dispenser with route path	PASS
Available dispenser manual selecting	User can click any dispenser on the available dispenser cards to manually select it, overriding automatic routing	PASS
Problem reporting	Complaint form submits message to Firebase; confirmation message appears	PASS

DISPENSER 3

FEATURE	DESCRIPTION	OUTCOME
Website Loading	Website loads after QR scan without any error or crashes	PASS
Dark mode working	Dark mode toggle switches interface to dark theme and persists	PASS
Automatic dispenser routing	Scanning QR code of empty/CRITICAL dispenser automatically highlights nearest available dispenser with route path	PASS
Available dispenser manual selecting	User can click any dispenser on the available dispenser cards to manually select it, overriding automatic routing	PASS
Problem reporting	Complaint form submits message to Firebase; confirmation message appears	PASS

DISPENSER 4

FEATURE	DESCRIPTION	OUTCOME

Website Loading	Website loads after QR scan without any error or crashes	PASS
Dark mode working	Dark mode toggle switches interface to dark theme and persists	PASS
Automatic dispenser routing	Scanning QR code of empty/CRITICAL dispenser automatically highlights nearest available dispenser with route path	PASS
Available dispenser manual selecting	User can click any dispenser on the available dispenser cards to manually select it, overriding automatic routing	PASS
Problem reporting	Complaint form submits message to Firebase; confirmation message appears	PASS

Trial 4

DISPENSER 1

FEATURE	DESCRIPTION	OUTCOME
Website Loading	Website loads after QR scan without any error or crashes	PASS
Dark mode working	Dark mode toggle switches interface to dark theme and persists	PASS
Automatic dispenser routing	Scanning QR code of empty/CRITICAL dispenser automatically highlights nearest available dispenser with route path	PASS
Available dispenser manual selecting	User can click any dispenser on the available dispenser cards to manually select it, overriding automatic routing	PASS
